Right... ... Guide

Veterans who wish to study abroad—Veteran students who are enrolled in American colleges during the regular school year and want to take summer courses abroad under the GI Bill must meet certain requirements to qualify for such study.

Procedure:

- The veteran first must obtain a letter of acceptance from the VA approved foreign school he plans to attend.
- Next, he must secure a supplemental certificate of eligibility from his VA regional office.
- The student then uses his letter of acceptance and his supplemental certificate as evidence in securing from the Department of State the necessary passports and visas authorizing his travel to the foreign school. The individual veteran must pay all transportation costs.

A tip—Veterans Administration recommends that the summer study be taken in an approved school in a foreign country served by an Attache of Veterans Affairs assigned by the Department of State. These countries include Great Britain, Mexico, Switzerland, Italy, Norway, Sweden, Denmark, Belgium and France.

The presence of these officials expedites payment of subsistence allowances, tuition and other allowable fees, VA explained. The records of veterans taking summer courses in these nations will not have to be transferred from the United States.

Records of veteran-students selecting any other country for summer study must be transferred to that nation. Such transfers take considerable time and often result in lengthy delays of subsistence and other payments, VA said.

Should the veteran decide to remain in the foreign school for the regular academic year, the Attache for Veterans Affairs in that country will request transfer of his records from the United States at that time.

Veterans may obtain information on foreign schools approved by VA by writing their VA Regional Office or the Director of Registration and Research, Vocational Rehabilitation and Education Service, Veterans Administration, Washington 25, D. C.

Frozen Foods Use Discussed By Dr. Gilbert

ROY O. GILBERT, M.D.,
Los Angeles County
Health Officer

Fresh frozen fruit, meat and vegetables are growing in popularity every day and certainly are a most economical way of transporting, distributing, and purveying food products.

Food is usually quick-frozen at its source, and remains in good condition, if kept at proper temperature, for at least a year. All of the inedible products are removed from the food, thus saving space and cost in storage and transportation. More important, however, is the fact that decomposition or spoilage is almost wholly eliminated.

The merchant naturally figures on an average of from five to 25 per cent spoilage of fresh fruit and vegetables, all of which must be added to the price of the product he sells. The frozen method cuts all of these costs down to a minimum and if handled right, and cooked right, insures practically the same nutritive value common to unprocessed food.

The housewife must remember that freezing of any type of flesh, vegetables or fruit results in broken fibre and therefore the usual methods of cooking do not apply. Directions for the estimated time of cooking are usually printed on commercially wrapped packages and should be followed exactly; otherwise, a cooked product that is unappetizing in both appearance and taste may result.

Pressure cooking usually takes just half the time that is marked on the package. In other words, if peas are marked seven to ten minutes, just half that time should be used in the pressure cooker.

AS ALWAYS! THE BUSIEST PLACE IN TORRANCE!

The Childrens Wardrobe

This announcement brings good news to busy mothers... particularly those who know a bargain when they see one. For throughout the entire store... items after item... things you need and want for your youngsters have been reduced for this great city-wide Torrance event!

STATE OFFICERS WILL INSPECT SCHOOL BUSES

The State Highway Patrol will start the annual inspection of the more than 8,000 school buses this month, the department announced today.

The buses operated by Torrance school district and other nearby districts will be included in the inspection.

Dominguez Area Children Suffer, Teachers Find

Unsanitary and squalid conditions in the homes of some underprivileged persons in nearby Dominguez area were surveyed by Principal H. S. Douglass of Dominguez Grammar School and by Mrs. M. A. Taylor, assistant field deputy of Los Angeles County, following a conference with Supervisor Raymond V. Darby.

When it was revealed recently at a meeting of the Dominguez Area Co-ordinating Council that the health of the community is endangered by the poverty of many children attending the Dominguez school, Supervisor Darby ordered that the study be made.

The Dominguez Area Chamber of Commerce, working with the Parent-Teachers Association and other groups, also has been active in trying to relieve the situation, according to Wallace D. Reynolds, chamber director. Mrs. M. Swinney, school nurse, has aided in the work.

Free lunches, milk, medical, dental and optical care has been provided by the local agencies, Torrance City Council last Nov. 25 rejected her claim for damages, leaving her no other recourse but to file suit in a higher body, according to her Attorney Clayton L. Howland.

City Sued For Bus Accident

City of Torrance was sued for \$5,824.87 for personal injuries and damages in Superior Court by Mrs. Maybelle Critzer, 50, of 11325 Hoover street.

At the intersection of Hoover and 68th street last June 7, Mrs. Critzer claimed, a Torrance Municipal bus which she normally takes into Los Angeles to go to work was driven so negligently that it struck the rear of an automobile, propelling her to the floor.

She suffered shock and bodily injuries of a permanent character, the complaint said, and broke her denture. At present she is forced to wear a sacro-lial belt and previously was unable to work for six weeks as a result of the accident.

Torrance City Council last Nov. 25 rejected her claim for damages, leaving her no other recourse but to file suit in a higher body, according to her Attorney Clayton L. Howland.

Realtors Get Reports

At the regular meeting of Torrance-Lomita Realty Board Monday evening, President W. E. Bowen and Earl Mallory gave comprehensive reports on the educational program of the California State Real Estate Association, held in Long Beach during the week.

A committee was appointed to complete plans for the dinner meeting, scheduled for Monday, May 24.

A new member, Mrs. Mary E. Reed, of Harbor City, was welcomed as a new member of the board.

REVENUE SYSTEM

The Internal Revenue system of the United States was first proposed by Alexander Hamilton.

COBB-PLAYED 3033 GAMES

Ty Cobb, one of the greatest baseball players of all time, played in 3033 games during his career.

INDIAN TERRITORY

Indian Territory was incorporated in Oklahoma when that state was admitted as a state in 1907.

How to make a hit with party-line neighbors

Johnny knows that it takes teamwork to make a good ball club... and wise party-line users know that teamwork is important on the telephone, too.

easy party-line pointers

- Space your calls instead of making a whole series of them... and talk only as long as necessary.
- If yours is an emergency call and the line is in use, explain the circumstances to the person using the line.
- If you are calling from a dial telephone, always make certain the line is clear before you dial.
- When the children use the telephone, ask them to be considerate, too.
- Replace the receiver properly when you finish your call. **Thank you!**
